

LEGAL AND LIABILITY RISK MANAGEMENT INSTITUTE

James R. Alsup, Director
John "Jack" Ryan, Attorney, Co-Director
Lou Reiter, Co-Director

Over the past several months the Legal and Liability Risk Management Institute has devoted a great deal of time and resources to improve the quality and user experience with LLRMI online risk management e-learning program. We have contracted with Bridge, an established e-learning management company with a robust background that hosts many of the Ivy League colleges and universities' e-training programs. Bridge has many important components which LLRMI felt was necessary to achieve high-level training, multi-layered tracking, and many other options to enhance the user experience. We are confident that Bridge will be a long-term solution for LLRMI to provide online legal and best practices risk management services.

There are several components to Bridge that will simplify the online training experience for agencies and officers:

- Simple sign-up upon receiving an email invitation from Bridge for each officer.
- The system provides administrative capabilities that will provide the individual agency with selected supervisory authorization to assure that personnel are completing the weekly training.
- The system will provide e-mail training reminders to staff that training programs are pending as well as reports to supervisors regarding incomplete trainings.
- The Bridge system provides 24/7 user support.
- All of LLRMI existing training videos have been migrated over to the Bridge system and we have already begun populating the platform with new roll-call training for both the road and jail operation.

We are confident that your agency will find the Bridge e-learning system to be a valuable comprehensive training and tracking tool and look forward to our continued partnership in providing training to your agency. **Please contact us to be enrolled and begin your training.**

Sincerely,

James Alsup-Director
John "Jack" Ryan, Attorney, Co-Director
Lou Reiter, Co-Director
